

Required Percussion Equipment

BY GRADE LEVEL

The Lewisville Independent School District has provided hundreds of thousands of dollars of percussion instruments which students are able to use throughout their percussion careers for a nominal fee. The individual student requirements regard the equipment necessary to practice, play, and maintain these wonderful instruments.

The items required to be a member of the percussion program are listed below and students without the necessary materials may not be able to continue in the percussion program. Students must have all required items at every rehearsal in order to be successful. It is imperative that we have all students start class right away with the right equipment.

The items are listed by grade level and are cumulative, meaning 7th grade students must retain their equipment from their 6th grade year. Students are also responsible for the replacement of lost, worn, or broken materials. These requirements may be in addition to other fees associated with membership in the band program.

All equipment and supplies can be purchased/rented at Music and Arts (www.musicarts.com) and should be purchased by the first day of school. I would encourage everyone to rent and purchase items as soon as possible because some items might be on back order and can take some time to get in. During their 8th grade year they should have all of the above in their stick bags and will be prepared for high school percussion.

If you have any questions regarding supplies please e-mail Mr. Hopkins (hopkinsj@lisd.net)
